

Summary:

- Software development professional with over 3 years experience on Java development & technology infrastructure experience having worked at De Touche Solutions Pvt. Ltd.
- Good Working experience in using different modules like Spring Core Container Module, Spring Application Context Module, Spring MVC Framework module, Spring AOP Module, Spring ORM Module etc in Spring Framework.
- Very good understanding of OOP , Spring MVC architectures.
- Proficient in developing Model View Controller (MVC) Architecture based applications using Spring Frameworks, Java Beans.
- Good with Design and develop RESTful API capabilities on Java technologies.
- Experience in Developing Spring-boot .
- Having good exposure in writing the Persistence layer using ORM tool Hibernate and JPA.
- Experience of using Hibernate for mapping Java classes with database and Hibernate query language (HQL), and Relational Mapping as well.
- Have good experience in developing applications using Eclipse, STS and IntelliJ, building them using Maven and deploying them in application server like Tomcat.
- Working experience on LOG4J and SLF4J for debugging and have good knowledge in using version control tool GIT.
- Experience in using Maven for building and deploying application on the servers.
- Experience in using Agile SCRUM methodology for developing the application.

Technical Skills:

- **Languages:** Java, Spring Boot, SQL
- **Development Frameworks:** Hibernate (Mapping, HQL, Cache), Spring (Core, JDBC, AOP, Transaction, ORM, MVC), RESTful
- **Java Web Services:** JAX-RS
- **XML Technologies:** XML
- **Testing Tools:** Postman
- **Databases:** Oracle, MySQL
- **Logging Frameworks:** Log4j, Slf4j
- **IDEs:** Eclipse, STS, IntelliJ
- **Build Tools:** Maven
- **Agile Methodologies:** Scrum
- **Project/Bug Tracking Tools:** Rally, JIRA
- **Operating system:** Windows

Education:

- Bachelor of Science from SVM (Auto.) College , Odisha. 2019

Professional Experience:
De Touche Solutions Pvt. Ltd. Bengaluru
Software Engineer

Nov 2019 – Present

Project: SAOLA

Environment: Java, Spring Boot, REST-WS, Spring DataJpa, Hibernate, Postman, Eclipse, STS, Maven, JIRA , GIT

Responsibilities:

- As an offshore developer was responsible for requirements analysis, interacting with onsite team to validate the understanding and actively involved in the development of the module.
- Developed java-based web applications with Java, J2EE web frameworks like Spring Boot, Spring MVC
- Designed and developed RESTful API capabilities on Java technologies
- Worked on Spring Data JPA.
- Enabled logging using Log4J to track application execution flow.
- Responsible for writing business logic for retrieving the data from data base.
- Written the restful services to expose the application to external world using Spring Rest integration.
